

# MEEZAN SHAIKH

Data Analyst | SQL • Python • Power BI • Excel

Nashik, Maharashtra, India 422302 | +91 73870 17880 | [meezanraza1803@gmail.com](mailto:meezanraza1803@gmail.com) | [linkedin.com/in/meezan-shaikh-171304307](https://linkedin.com/in/meezan-shaikh-171304307) | [github.com/meezanshaikh18](https://github.com/meezanshaikh18) | [meezan-shaikh-portfolio...vercel.app](https://meezan-shaikh-portfolio.vercel.app)

## PROFESSIONAL SUMMARY

Data Analyst with hands-on training in SQL, Python, Microsoft Excel, and Power BI, gained through an applied analytics traineeship and a Deloitte virtual job simulation. Experienced in cleaning and validating raw data, writing multi-table SQL queries, and building interactive dashboards that turn datasets into clear, decision-ready insights. Comfortable working independently on end-to-end analysis, from data extraction through visualization, and maintains an active GitHub and project portfolio.

## TECHNICAL SKILLS

- **Languages & Querying:** SQL (Joins, Subqueries, Aggregate Functions, GROUP BY), Python (Pandas, NumPy)
- **BI & Visualization:** Power BI, Microsoft Excel (Pivot Tables, Dashboards), Data Visualization, Dashboard Development
- **Analytical Techniques:** Data Cleaning, Data Wrangling, Data Profiling, Data Transformation, Exploratory Data Analysis (EDA), Statistics
- **Tools & Concepts:** Database Management Systems (DBMS), Git & GitHub, Business Intelligence Fundamentals, Machine Learning Basics
- **Professional:** Report Generation, Analytics Reporting, Stakeholder Communication, Problem Solving

## EXPERIENCE

### Data Analytics Trainee — Drishti CPS, IIT Indore (Remote)

Mar 2025 – Present

- Write complex SQL queries using JOINS, aggregate functions, GROUP BY, and subqueries to extract and analyze data efficiently
- Analyze datasets using SQL, Microsoft Excel, and Power BI to identify trends and generate business insights
- Clean, transform, and validate raw records to ensure accuracy and consistency across analyses
- Perform exploratory data analysis (EDA) to uncover patterns and deliver actionable, decision-ready insights
- Build interactive dashboards and reports in Power BI to visualize KPIs and support evidence-based decisions

### Data Analytics Virtual Experience Program — Deloitte Australia (Forge, Remote)

Jun 2026 – Jul 2026

- Interpreted datasets to identify trends that informed strategic business decisions
- Performed analysis and forensic technology tasks to address realistic client scenarios
- Communicated findings and insights to stakeholders to support informed decision-making
- Applied structured, analytical problem-solving across targeted simulation exercises

## EDUCATION

### BBA — Computer Applications (BBA-CA)

Graduated May 2026

YEWS National Senior College, Nashik, Maharashtra, India

- Coursework: Database Management Systems (DBMS), Data Structures, Computer Networking, Programming Fundamentals, Web Development (HTML, CSS, JavaScript), Object-Oriented Programming, Software Engineering, Operating Systems, Business Applications

### Certification Program — Artificial Intelligence & Data Science

Mar 2025 - Present

Drishti CPS, IIT Indore, Indore, Madhya Pradesh, India

- Focus areas: Data Analytics, SQL, Python, Microsoft Excel, Power BI, Statistics, Data Visualization, DBMS, Data Cleaning & Transformation, EDA, Business Intelligence Fundamentals, Machine Learning Basics, Git & GitHub

## CERTIFICATIONS

- Deloitte Data Analytics Job Simulation — Forge
- Data Analytics Certification — Intellipaat
- Artificial Intelligence & Data Science Program — Drishti CPS, IIT Indore
